- Node.JS .
- Express.js.
- jQuery.
- React.
- GitHub And Version Control.
- API's.
- FAMILIAR WITH : MongoDB , MySql , Deployment , Python,UI-UX and web-designing.

---

## PROJECTS:

### Daily Feeds-

- "DailyFeeds: Developed a news app that utilizes the News API to retrieve articles and displays them in a user-friendly layout using React, React Router, Bootstrap, HTML, and CSS. Implemented search functionality and different categories such as business, sports, and entertainment in the navigation bar, allowing users to find specific articles and navigate through different sections of the app."

- "Skills: React, React Router, HTML, CSS, JavaScript, Bootstrap, npm, News API"

### Sticky Notes-

- "Sticky Notes: Developed a sticky notes application using vanilla JavaScript, HTML, and CSS. Implemented features such as adding and deleting notes by double-tapping on them, with an easy and pretty UI."
- "Skills: JavaScript, HTML, CSS, User Experience (UX), User Interface (UI)"

### Unsplash API

- "Unsplash API: Developed an image generator app similar to Google Images using the Unsplash API, JavaScript, HTML, and CSS. Implemented features such as searching for images by keywords, displaying the images in a user-friendly layout, double-tapping to open the images in a new window and providing a direct link to download the images."
- "Skills: HTML, CSS, JavaScript, Bootstrap, Unsplash API"

---
